

Before Ceremony Portrait List

Wedding Name _____

This list is for the portraits we will take right after each of you dress for the wedding. The groom with his party and the bride with hers. At the end of my time with each of you, you may want to have the opportunity for portraits with just you and your family. This is often a very exciting time with all of the anticipation of the ceremony and I find that families really appreciate this opportunity for a little portrait session before they add a new member! If you choose to have these photos done, please make sure your family knows they will need to be dressed and ready for them. For the groom this is usually about 2½ hours before the ceremony. For the bride, they are done when we are finished without your bridal portraiture.

NOTES

Brides Portraits _____

Bride with Bridesmaids _____

After Ceremony Portrait List

Wedding Name _____

Portrait time after the ceremony is generally very precious as there is a lot to be done between the ceremony and the couple's entrance to the reception. I caution clients to keep in mind that it takes on average two minutes per pose for family portraiture, five minutes per extended family pose, so make sure you actually need to poses you order. If you are choosing to do your couple portraiture after the ceremony as well, we will need 25-40 minutes on average to complete couple portraiture depending on how many locations you want and travel needs. Take all of that into consideration when completing this checklist. Thanks!
